Enthusiastic college student working towards degree in Computer Science. Looking to land Software engineering internship to further my programming abilities. Experience with many programming languages including C++, Python, and Swift. Great with working in groups, but can also be an individual contributor. Quick-learner with a positive attitude ready to make immediate impact.

Education

Aug 2019 - Current **Bachelor of Science: Computer Science**
California State University - Chico - Chico, CA
Enrolled in the Honors program. **GPA: 3.7**

Skills

Proficient in C++ and Python.

Familiar with Swift and iOS development.

Good written and verbal communication skills.

Quick learner, can pick up a new language to satisfy company needs.

Work History

Jun 2018 - Sep 2018 **Technology Teacher at a Retirement Home**
SAHA, Berkeley, CA

Technology touter at a retirement home. Was in charge of three elders, and to teach them the basic of the technology around them. Helped them use and understand the benefits of technology such as phones and computers.

Aug 2018 - Aug 2019 **Cashier**
Yogurt Now, El Sobrante, CA

Traditional High School job. Worked the cash register and interacted with the customers; Helped to improve my social skills.

Internship Experience

Children's National Hospital

Interned at the Children's National Hospital in Washington DC. Non-tech related internship. Helped with various tasks from setting up patients rooms to participating in team meetings to increase daily productivity.

Volunteer and Leadership Experiences

Kick boxing coach for kids ages 6-12 years old. Ran drills to teach them basic kick boxing forms. I was in charge of my group which consisted of 10-12 kids. This experience helped to better my leadership skills.
